

3 Courses

Computer Hardware and Software

Data, Security, and Privacy

Productivity and Systems Development

Mar 7, 2022

AMIR ALI

has successfully completed the online, non-credit Specialization

Introduction to Computer Information Systems

This Specialization is intended for anyone seeking to learn basic computer skills. Through 3 courses, you will cover computer hardware, software, productivity and data safety, which will prepare you to build computer systems.

Timothy Carrington,
Ed.D.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
